INTEGRATED DENTALCARE

EDINBURGH

Your 10 Point Dental Risk Assessment

A thorough, whole-mouth examination so we can spot problems early and plan proactive care, not reactive repairs.

1	**Tooth decay**	Examination of teeth for early changes or decay
2	**Existing fillings**	Checked for damage, overhangs, leakage or failure
3	**Gum health**	Assessing bleeding, pus and gum pockets
4	**Cracks & wear**	Tooth cracks, fractures and pathological wear
5	**Aesthetics**	Staining and discolouration of teeth
6	**Tooth mobility**	Signs of overloading or loss of bone support
7	**Bite & jaw joint**	Bite assessment, including jaw joint health
8	**Malocclusion**	How your teeth and jaws line up together
9	**Oral cancer screening**	Checking for any unexplained lesions
10	**Diagnostic tests**	X-rays and intra-oral scan, if necessary
